DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because of minor informalities. From amended abstract submitted December 12, 2007, insert --. -- after "signal" on line 12; insert --. -- after "decoding" on line 12; and insert --. -- after "headers" on line 14. Correction is required. See MPEP § 608.01(b).

Claim Objections

2. Claims 1 and 6 is objected to because of the following informalities:
 - a) On line 25 of claim 1, insert --data-- between "n packets"; and
 - b) On line 8 of claim 6, insert --division-- between "wavelength-demultiplexing".Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1-3 and 5-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the kth output" in line 25. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "n packets" in line 25, "the selected n data packets" on line 31, and "n output headers" in line 31. Previously submitted amendments to claims and in the specification/abstract discloses n as the variable. Appropriate correction and clarification is required.

Claims 2, 3, and 5-8 rejected based on their dependency on claim 1.

Allowable Subject Matter

5. Claims 1-3 and 5-8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph and claim objections, set forth in this Office action.

6. Claim 9 is allowed.

Response to Arguments

7. The drawings were received on May 7, 2008. These drawings are acceptable.

Applicant's arguments filed May 7, 2008, with respect to claims 1-3 and 5-9 have been fully considered and are persuasive. However, upon further examination of the amended claims, new objections and rejections have been made.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
